PREFATORY NOTE.

Beginning with the year 1913, the Monthly Record of Current Educational Publications takes the place of the annual Bibliography of Education previously issued by this office. The present author and subject index is designed to make the 11 numbers of the Record from January, 1913, to January, 1914, inclusive, available for permanent use as an annual survey of educational literature. The references in this index are to the item numbers, which run consecutively throughout the series of monthly bulletins for the year. A very full system of subject headings is included, to supply the lack of a closer classification than was practicable in the monthly lists, and to afford ready access to material on each topic represented.

The index was compiled by Miss Isabel L. Towner, head cataloguer in the library of the Bureau of Education.

MONTHLY RECORD OF CURRENT EDUCATIONAL PUBLICATIONS: INDEX, JANUARY, 1913–JANUARY, 1914.

[The numbers refer to item, not to page. Names of persons about whom articles or books are written, and references to subjects, are printed in small capitals.]
